

Items to Bring for the First Week

This is a list of items that are needed when your child starts coming to the Center. We will request that you replenish these items as needed.

- 3 packs of wipes that are unscented and hypo-allergenic; to be used for general use.
- 2 boxes of tissues to be used for the class.
- 2 new bibs to be used for the class, which will be washed and left at the center. Please, no vinyl backed bibs.
- Medication Consent Forms*, if medication is needed while at the Center. A separate form is needed for each medication your child may need while in our care.
- Diapers—we request that parents bring a full bag to be left in the child's locker. If you bring diapers daily, please bring at least 6 diapers each day.
- Diaper rash creams and lotions that you have authorized us to use on the *Authorization for Use of General Ointments, Lotions, and Creams form*.
- 2-3 complete changes of clothes to be left in your child's locker, including clothes for outdoor use (jacket, hat, mittens), depending on the season.
- Sleep-Sack for your child. Sacks are sent home on Fridays to be washed and brought back the following Monday.
- 2 bottles
- Breastmilk can be brought in breastmilk bags, or bottles daily. If your child uses formula other than the formula provided by the Center, please provide us with a can of your child's formula. Please note that we cannot serve juice to infants under the age of 9 months without a doctor's note due to CACFP (Child and Adult Care Food Program) guidelines.

Please label all clothing, sleep-sacks, and bottles with your child's full name. Any food (and breastmilk) brought from home must be labeled with the child's full name and the date.

Please remember that we are a Peanut-Free Center.
